

US Child Restraint Regulations

Road Bear RV / Britz USA Child Seat Policy

- All states in the United States have child restraint laws
 - The laws vary by state, age and/or height of the child
 - The customer is responsible for being aware of the laws in the state they plan to visit (or travel thru)
 - The most current laws can be found at the Governors Highway Safety Association¹ or State Highway Safety Office²
- Neither Road Bear RV nor Britz USA rent child or booster seats
 - Either bring your child / booster seat from home (you may need it for shuttle and/or taxi – airlines normally ship it for free) or
 - Two weeks before your pick-up, buy one online and have it shipped to the pick-up location (we store it for you - ensure your name is on it)
- After April 1, **all units** will offer **1 Tether Anker** to secure one child seat
Note: Tether Anker is located at the dinette table (pictures is for demonstration purpose – actually location may vary).

- Child seat **cannot** be used on the passenger seat
- Child seat **must** work with the lap belt system
