8. ACCIDENTS

Single vehicle accidents are included in all liability cover options, except in the case of roll-overs. In case of damage to the vehicle rented, the following will apply:

The incident:

All accidents must be reported to THRSA (THRSA Call Assist +27 11 230 5137 / +27 84 250 4937), and by law, to the Local Police within 24 hours. An AR (accident report) number from the police must be obtained at the time of reporting the incident. This proves that the accident has been registered. Failing to report accidents may void all liability cover and the renter becomes fully liable for all costs. We advise that you take as many photographs of the accident scene and also obtain the third party details when applicable. These can be recorded on the reverse side of the rental pack envelope supplied to you on collection. We also suggest that you take a photograph of the driver's licences of the persons involved and of the license disc displayed on the windscreen of the 3rd party vehicle. An accident report which is provided in the RENTAL PACK, must also be completed. These documents and records of evidence will be submitted to THRSA in order to process the incident.

The vehicle:

The renter is responsible for the recovery of the damaged vehicle to the original rental branch depending on the liability cover option taken. A replacement vehicle will only be dispatched once payment of all damages / recovery costs to the first vehicle is made, if applicable. THRSA reserves the right to withhold a replacement vehicle; this does not entitle the client to any claims against THRSA.

If the renter requires a replacement vehicle to be delivered, charges will be levied if applicable, according to the liability cover option taken on the rental.

If the renter is not granted a replacement vehicle, no refunds for early termination of the contract will be considered.

Should the renter continue with a replacement vehicle, this vehicle will be noted under the current rental contract and standard cover will be applicable. This includes a new standard cover liability deposit (as per Annexure 2) pre-authorization on the nominated credit card. LLR1(Loss Liability Reduction) or Super Cover / LLR2 (Loss Liability Reduction) is not available on a replacement vehicle. (Irrespective of which party is at fault)

9. AIR-COOLING SYSTEM

The air-cooling system in the cabin and rear of the vehicle (Motorhomes), is designed to be used in South African weather conditions. In regions where the temperatures reach in excess of 28 degrees Celsius, the unit may not work as effectively. This is normal and does not constitute grounds to request a replacement vehicle. Whenever the vehicle is stationary, or idling for prolonged periods, the cabin air-cooling system must be switched off to prevent damage. The air-cooling system in the living area of the motorhomes only works when it is plugged into a 220v power supply. This power supply can be found at most camp sites. The vehicle is supplied with an extension cord, which is plugged into the camp site power box, and then plugged into the motorhome in the socket labelled POWER INLET.

Repairs of up to ZAR1,500.00 may be affected without prior authorisation from THRSA and such repairs will be reimbursed, on the submission of a claim with original receipts attached. Amounts above ZAR1,500.00 will require verbal/telephonic approval from THRSA on-road assistance, where a ticket will be logged on our ticketing system for reference when submitting your claim. For your safety, THRSA recommends a maximum speed of 120km/h on tarred roads, and 60km/h on gravel/sealed or corrugated roads, and 40km/h in National Parks. Tyres get hot and pressures increase at higher speeds. Tyres are then susceptible to damage especially on uneven surfaces. When replacing a tyre, please ensure that it is a new tyre of the same brand, size and that it has a ply rating of 4mm or more. Reconditioned, second hand or re-treaded tyres are NOT acceptable. The renter is

required to check the tyre pressure when the tyres are cold (i.e. not after travelling for more than 10km), at regular intervals. All tyres should be checked, including spares. The company's minimum tread requirement is 4mm which is within the South African Road Ordinance limits of 4mm.
